Technical Experience:

- ◀ Abdominal ultrasound 18 years experience at the National center of Gastro Intestinal and Liver disease
- ◀ US guided biopsies & cytology of intra abdominal focal lesions. Alcohol injections for hepatocellular carcinoma. Ultrasonographic management of liver and other intra abdominal cysts and abscesses. Biliary drainage procedure, radio frequency ablation(RFA) of tumors. Intervention management of Hydatid disease
- ◀ Diagnostic and therapeutic upper & lower G.I endoscopy including, polypectomies, sclerotherapy, banding, balloon and safari dilatation and PEG tube insertion.
- ◀ Peritoneal biopsy

Teaching experience;

Organization and Teaching at abdominal ultrasound workshops and hepatitis workshops for physicians and surgeons

Teaching of medical students and supervision and teaching of senior officers & medical registrars at the National center for GI & liver diseases.

Supervision of thesis for MD clinical Medicine: 10 thesis

Ultrasonography related studies

HCC in Sudan, prevalence and outcome of management of Liver abscesses in Sudanese patients, Prevalence and etiology of fatty liver disease in Sudanese patients, fatty liver disease in patients with NIDDM, prevalence and management of cystic liver lesions, Prevalence of pulmonary hypertension in patients with bilharzial PPF, Prevalence of CBD stones in Sudanese Patients, analysis of etiological factors in the obstructive jaundice Syndrome. Correlation of CBD diameter & Bilirubin level in the obstructive jaundice syndrome. Prevalence of PV thrombosis in Bilharzial PPF, Morphometry of Left liver lobe in Bilharzial Periportal Fibrosis. Gall stone disease in periportal fibrosis, Accuracy of FNA

Conferences & papers:

15th 16th & 17th Sudanese Association of Physicians Conferences
Khartoum, Sudan

Ultrasound diagnosis & management of abdominal abscesses & cysts.

31st Conference of Arab Doctors Union.

Khartoum, Sudan Nov.1998

3rd International Congress .Cairo, Egypt , Sept .12-16, 1999

The Pan Arab 4th International Congress of Gastroenterology Feb.10 -14, 2001, Faculty & organizer of 1st U/S workshop in diagnostic & therapeutic ultrasound in Sudan

5th International Congress, Dubei, UAE::

Prevalence of common bile duct stones in patients with obstructed biliary system

World congress of Gastroenterology WCOG,
Bangkok, Thailand, Feb 24 -March 1, 2002

World congress of Gastroenterology WCOG

Italy, Rome :Nov 1999:

The Caudate lobe volume in Bilharzial Periportal Fibrosis

WCOG , Montreal, Canada Sep 2005, poster presentation;

Prevalence of Portal vein thrombosis in patients with Bilharzial Periportal Fibrosis.

MASU May2005 workshop of U/S in Khartoum, faculty & organizer

International meeting of the IASL/AFASLD International Association and African Association of the liver Diseases (Cairo; September 2006) .

8th International workshop on therapeutic endoscopy and 1st workshop on Endoscopic ultrasound ; Egypt 2006.

18th IASCO World Congress Oct. 2008 Istanbul, Turkey: Guest lecture presentation

on; *Portal vein thrombosis*

WCOG 2009 London: Faculty in Ultrasound workshop: 2 Lectures on case reports

Echocardiography course in Khartoum, January 2009

2nd international conference of Sudanese society of gastroenterology Khartoum, Sudan
Feb. 2010 organizer of ultra sound workshop in collaboration with DEGUM

Short Course on Abdominal Ultrasound In Infectious Diseases & Tropical Medicine.
IRCSS S Matteo-Pavia University Italy. April 2011

XXIV world congress of Hydatidology in China 2011: paper; *rare U/S appearance of Hydatid disease of the liver*

XXV world congress of Hydatidology in Khartoum 2014: lecture, Hydatid management
experience in Sudan. Organizer of U/S workshop on tropical disease

4th international conference of Sudanese society of gastroenterology Khartoum, Sudan
Dec. 2014 organizer of ultra sound workshop in collaboration with DEGUM

Faculty in Euroson-School Interventional US Berlin,2014 paper: *Hydatid experience in Sudan*

Intensive Gastroenterology Education & Training (iGET) 4-7 September 2014,
Neumarkt, Germany. Invited as Tutor

Intervention Radiology ref to Hydatid disease, with Prof Okan Akhan, Ankara Turkey
20-29 Nov 2015

CESSARI : Focused assessment of Hydatid with sonography, 8-12 March 2016. Pavia,
Italy

Special interests:

US Gastrointestinal Tract

Interventional US

Education in Ultrasound
