Sonographer/Technologist/Nurse	\$ 210	\$ 300	\$ 400
Exhibitor	\$ 520	\$ 650	\$ 780

**REGISTER NOW** 

# WELCOME MESSAGE

Dear Colleagues and Friends,

It gives us a great pleasure to invite you to the World Federation for Ultrasound in Medicine and Biology (WFUMB) 2023 Congress which will be held on November 4-7, 2023 in Muscat, Oman.

Occurring every 2 years, it is one of the most important events of the year for the international community of medical ultrasound, designed for multi-disciplinary professionals, both those specializing in ultrasound and those with a more general clinical interest who want to be updated on developments in the field. Leading international experts as well as young researchers will present and discuss the latest developments in medical ultrasound. Major topics include latest advances in elastography, portable ultrasound, innovations such as artificial intelligence, 3D/4D, interventions and contrast agents, among others. New this year: a dedicated International Contrast Ultrasound Society (ICUS) session.

This is the ultrasound meeting to find answers, learn and network. The scientific program is, naturally, the focus but social activities and the reunion with friends from all over the world are an essential part of the congress.

Oman is a land of rich history and fascinating culture that dates back well over 5000 years, think Sinbad, the Queen of Sheba, frankincense and more. In fact, Oman is the site of pre-historic human habitation, stretching back over 100,000 years! Muscat, the capital city, was named the best city to visit in the world by the travel guide publisher Lonely Planet in 2012. It has many places that blend ancient and modern with souks selling silver and gold artefacts, frankincense, metalworking, textiles and pottery, in the same way as has been customary for thousands of years. The Omani people have a reputation for being amongst the world's most hospitable and we hope you will join us to enjoy the country and the people, in addition to the superb scientific program that is being prepared.

Many thanks to the whole team of the Oman, Drs. Saqar Al-Tai, Nihal Al-Riyami, Saad Al-Juma, and Amal Al-Shibli, Jokha Al Kalbani, Alyia Albarwani and Dr. Sandeep of the Oman Society for Ultrasound in Medicine for organizing what will undoubtedly be an extraordinary congress.

See you in Muscat in November 2023!

Jacques Abramowicz  
WFUMB President Elect  
2021 - 2023

Cristina Chammas  
WFUMB President 2021  
-2023

---

## OSUM PRESIDENT WELCOME MESSAGE

Dear Colleagues,

On behalf of the Organizing Committee, it is my great honor and pleasure to welcome you to the 19th World Federation for Ultrasound in Medicine and Biology (WFUMB) Congress hosted by the Oman Society of Ultrasound in Medicine (OSUM) from 4 to 7 November 2023 in Muscat, Oman.

The venue for the congress will be the Oman Convention and Exhibition Center with state-of-the-art facilities.

The scientific committee has done an excellent job assembling world-renowned speakers sharing their expertise with the delegates. We hope that the delegates will actively interact with the invited international experts from the different fields of ultrasound.

We hope that this congress will serve as an opportunity for all participants to make new friends and to enjoy the beauty, culture, and hospitality of Oman.

We look forward to welcoming you to Muscat, in 2023.

Sincerely yours,

Saqar Altai, FRCR  
President, Oman Society of  
Ultrasound in Medicine
