

Dr TERESA ABBATTISTA [ MD]

Date/Place of Birth: June 12, 1968 (Fano – Pesaro-Urbino) Italy

Home Address: 8, Raffaello Sanzio St - Fano (Pesaro-Urbino)

Citizenship: Italian

Mobile: +39-347 1096360

E-mail: dr.abbattista@gmail.com

- I am a Medical Doctor specialized in Diagnostic Imaging and I work as head of the Diagnostic imaging Breast Unit section in Principe di Piemonte Hospital in Senigallia (Ancona – Italy) since 2016

I am particularly interested in ultrasound non only for breast ma also for abdomen and soft tissues

My main interests are:

- Breast imaging, interventional biopsy and Magnetic Resonance
- Gastrointestinal Imaging including CEUS of the liver and the bowel

My tasks are:

- I'm the training manager of the Radiological Units in my Region
- I'm Head and Coordinator of the SIUMB Basic School of Ultrasound and SIUMB Senological School since 2016

- I was member of the Educational commission in SIUMB from 2010 to 2012

I published articles in national and international review; in particular I was interested in studying:

- Early diagnosis of cirrhosis in “ Contrast enhanced ultrasound evaluation of hepatic microvascular changes in liver diseases “- World J Gastroenterol. 2012
- Interval breast cancers in “ Interval breast cancers in screening: the effect of mammography review method on classification” - Breast 2007

I wrote several chapters about my main interests in national books.

I'm MASU President from 2025 (Mediterranean and African Society of Ultrasound)

I founded the association "Accademia Ecografica Senigalliese" devoted to teaching ultrasound to doctors in 2016 and I am his General Secretary actually; with this association I organize several meetings to take care of ultrasound training of doctors.

I gave several invited lectures in my area of expertise in national and international meetings
